SUBJECT: Diving Activities, Adjacent to the Federal Mooring Facilities at Cumberland River Mile 32.5, Left Bank

Divers will be conducting an underwater inspection of the Steamer MISSISSIPPI QUEEN at the subject location beginning on 11 June 2006. During this activity, the vessel will be moored to the bank side of the Federal mooring cells. The inspection is expected to be completed by 15 June.

While this facility is not closed to use by navigation traffic during this activity, vessel operators are instructed not approach this facility until they have contacted the MISSISSIPPI QUEEN on marine radio Channel 13 or 16 or via telephone at 504-912-5201 for additional information. Vessel operators are also requested to contact the Lockmaster at Barkley Lock prior to using this facility.

Vessel operators transiting this area are requested to hold a safe distance off this site to reduce the possibility of their vessel wake causing equipment damage or personal injury.
